ROBERTS HANDLING CIVIL PROBLEMS

Interest In Military Situation Temporarily Eclipsed.

ENGLAND WAITS CONTENT

Success of "Little Bobs" Disarms Even Military Critics—Bloemfontein Satisfied—Roberts Promises to Lead His Men into Pretoria.

LONDON, March 16.—Lord Roberts' success in handling the civil problems at Bloemfontein and the manifest equanimity with which the residents of the capital of the Orange Free State accept the British occupation temporarily eclipse in interest the military situation.

It is believed here that the commander-in-chief of the British forces in South Africa will push on to Pretoria, but Great Britain is quite content to listen for a few days to the acclamation of the people of Bloemfontein and permit the troops to enjoy a few days' rest before expecting further success.

Lord Roberts made a quaint speech to the guards at Bloemfontein today when in his first congratulatory words, he expressed pride in their splendid march of 56 miles in 28 hours and gave ample assurance of his ultimate design.

"Through a small mistake," said Lord Roberts, "I have not been able to march into Bloemfontein at the head of the brigade as I intended. I promise you, however, that I will lead you into Pretoria."

General Gatacre is holding Bethulie and the whole line of the south of Bloemfontein is now in the hands of the British, and General Brabant's column having crossed the Orange river after a forced march at Aitwath north on Sunday, and General Clement's column being across at Vanzyl, the three columns will form an army of 12,000 to 15,000 men, which is expected to envelop the forces of Lord Roberts at Bloemfontein as he pushes northward.

Just where the Boers will attempt to oppose that march is an important question, but it cannot be easily answered until General Joubert is more definitely located. Further news has reached the outside world from Maitland, dated Friday, March 9, showing that though the garrison was in hard straits, they were buoyed up by the knowledge that their plucky fight was appreciated at home.

BRITISH IN BLOEMFONTEIN.

Frazer, Who Surrendered Keys of the City, Acting Mayor.

BLOEMFONTEIN, March 16.—General Pretorius is succeeding admirably as governor of the town. He issued a proclamation today requesting the burghers within a radius of 10 miles to deliver up their arms, assuring them they would be paid for the confiscation of their property.

Lord Roberts is about to issue fresh proclamations, which it is considered will have the effect of disarming further opposition upon the part of the Free Staters.

Mr. Collings has been appointed landrost vice Pappe's, deposed, and Mr. Frazer will act as mayor.

Great quantities of stores captured at Waterfall have been recovered. As the result of Hunter and Weston's line cutting the British have secured 26 engines and the line has been cleared to the Kaffir river. Rumors are current that former President Steyn is willing to surrender. Much unrest exists among the Dutch population. The burghers described the soldiers as looters, saying they are innumerable and identical with them.

There is great rejoicing among women and children, who have been shut off for months. Great complaint is made of the harsh treatment by the Boers during the occupation. Rebels are coming in daily with their arms from the south. A number of other rebel leaders have been arrested.

Rhodes Says Crown Colony.

CAPE COLONY, March 16.—In an interview published in The Cape Argus Cecil Rhodes is quoted as saying: "I feel strongly that we cannot have peace in South Africa so long as we have in the republic a rallying ground for disloyalty and disaffection. To go further, I do not think we can safely federate till we have had some years of crown colony government. Personally, I have done with the bond."

Contract Syst. in Abolished.

CLEVELAND, March 16.—As a result of the conference now being held here between representatives of the Lake Carriers' association and a committee from the Grain Shovelers' union, it seems very probable that there will be no repetition of the big strike on the docks at Buffalo last summer. The contract system, which was strongly objected to by the shovelers, has been abolished.

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. G. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for this painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S. S. S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

THE THINNEST OF MEN.

Claude Senrat Might Have Been Mistaken For a Skeleton.

Instances of remarkably thin men are not uncommon, but Claude Ambrose Senrat, who was exhibited in 1825, was such an extraordinary personage that no fewer than 10,000 persons visited him in a few weeks. Senrat was born in 1797 and was therefore 28 years of age when he made his appearance.

Astley Cooper, the famous physician, was among the throng who poured into the building in which Senrat received those who were anxious to see him, and in writing of him he said: "Senrat is without doubt the most mysterious being I have encountered. His face is that of an ordinary man, somewhat emaciated perhaps, but not remarkably so. His eyes are bright and his voice is pleasing. Seen in the ordinary costume of the day, he in no way differs from the average foreigner, but stripped of his padded clothing he presents an astounding spectacle."

"His arms are mere bones, covered by parchmentlike skin and muscle, and flesh he appears to have none. He is therefore scarcely able to move his arms and legs, and walks, though without apparent effort, with extreme difficulty. On measuring him and weighing him I found that his chest measurement was 30 1/2 inches, which is fair; that his weight was not more than 45 pounds, the bones being much smaller than those of an ordinary man of his stature, who might weigh 150 pounds. In appearance, indeed, he so much resembled a skeleton that a shortsighted person might easily mistake him for one."

Senrat's food consisted of two or three ounces of bread and meat daily, and sometimes he took a little wine. He was remarkably intelligent and well read as I picked up English rapidly. On arriving at places where he was not known he was accustomed to walk out in his padded clothes and did not attract any particular attention. He said that until the age of 10 years he resembled any ordinary boy, but that he suddenly wasted away. He died in 1849, aged 52 years.—Chicago News.

Exceeded All the Other Boys. Is there anything in which you excelled when you went to school? asked Miss Cayenne. "Yes," answered Willie Washington. "I made more blunders than any other boy in the class."—Washington Star.

A bell sounding the curfew signal to go home snacks as much of ring rule as a new married man not being allowed a latekey.—Philadelphia Times.

Eugene J. Hall, the poet and publisher, says that one dose of Foley's Honey and Tar restored his voice when hoarseness threatened to prevent his lecture at Central Music Hall, Chicago. Nothing else as good.—W. A. D'Alemberte.

NEWS TRAVELS FAST.

The Mysterious Way In Which It Spreads Through an Audience.

"You cannot keep news, especially war news, out of any public building, be it theater, concert room or lecture hall, no matter how deeply engrossing the entertainment may be, and from one man, who perhaps knows only one soul in the place, coming in with the news of a statesman's death, of a great victory, or what not, the whole audience of a couple of thousand people will know the news in five minutes."

The gentleman who thus spoke is one of the most experienced theatrical managers in the world, and he went on: "I could give you some most striking instances from my own experience of what I say. I have seen a big audience convulsed with laughter at 9 o'clock, say, but through a bare whisper of a great outside calamity that circulated through the house with almost the rapidity of telegraphy, that same audience has been restless, universally grave of face and absolutely inattentive to the very culminating point of fun on the stage. And the singular thing is that actors who have never left the stage have, through the medium of whispers among the band or from the stalls, known all that the original messenger of evil had to tell."

"The late Rev. C. H. Spurgeon once told me that he had known this same thing precisely to occur during the course of a religious service, and when a vast congregation were on their knees. He gave me the time and place and explained how, from the whisper of a doorkeeper, a kneeling concourse of thousands knew the whole story of a national crisis in an incredibly short time."—London Tit-Bits.

GOLD DUST.

"Housework is hard work without Gold Dust"

TO CLEAN NURSERY BOTTLES

After the bottle has been used, rinse it thoroughly in warm water; then fill with warm water containing a teaspoonful of

Gold Dust Washing Powder

and let it stand, shaking every now and then. If rubber tube is used let it remain also in the water. Rinse through clean water several times. Gold Dust is much more effective than soap to clean them, as it removes all specks and mites clinging to the sides of the bottles.
